

Technical Sheet

Experience 1 - Mentalism Show

For the Mentalism Show, a space of approximately 4 x 3 meters is required where the artist can perform and engage with members of the audience. The space, preferably (but not necessarily) raised with a stage or platform, must always be clearly visible to the entire audience. If a stage is present, a side or front ladder is required to access the stage from the audience. If a lighting system is present, it must be positioned facing the artist. Procurement of the necessary equipment for the show must be agreed upon, whether by the client or the artist. This equipment includes:

- Headset radio microphone, including transmitter and receiver
- Handheld radio microphone, including stand
- Speaker(s), including a stand for raising the speaker, and possibly a mixer if necessary; if the speakers are not battery-powered, an extension cord is required to connect them to the power supply
- A table measuring approximately 1 x 1.5 meters

The figure below shows a typical show setup. The audience can stand, sit on chairs, or sit comfortably at tables if it is a lunch or dinner setting.

Experience 2 - Close-up Mentalism

For the close-up magic package, no special equipment is required. If the event is a lunch or dinner, in order to best organize the entertainment, the artist will request a table layout and a list of the planned courses at least one day in advance, for example:

- First course appetizer
- Second course appetizer
- First course
- Second course
- Dessert
- Coffee
